

US005250550A

United States Patent [19]

Keefer et al.

[11] Patent Number: 5,250,550

[45] Date of Patent: Oct. 5, 1993

[54] COMPLEXES OF NITRIC OXIDE WITH POLYAMINES

[75] Inventors: Larry K. Keefer, Bethesda; Joseph A. Hrabie, Frederick, both of Md.

[73] Assignee: The Government of the United States of America as represented by the Secretary of the Department of Health and Human Services, Washington, D.C.

[21] Appl. No.: 906,479

[22] Filed: Jun. 30, 1992

Related U.S. Application Data

[63] Continuation of Ser. No. 585,793, Sep. 20, 1990, Pat. No. 5,155,137.

[51] Int. Cl.⁵ A01N 43/40

[57] ABSTRACT

There are disclosed novel complexes of nitric oxide and polyamines which are useful in treating cardiovascular disorders, including hypertension. The disclosed compounds release nitric oxide (endothelium-derived relaxing factor) under physiological conditions in a sustained and controllable fashion, and possess long mechanisms of action.
